Monarch softwares

SKILLS

Technical Skills

C++, Canva, CSS, Dart, Figma, Flutter, Flutter Flow, Github, html, JavaScript, Leetcode, n8n, Photoshop, python, streamlit, VS Code

Soft Skills

Event Co Ordinator, Good communication, Leadership, planner, Sports Player, Teamwork

EDUCATION

SNS College of Technology

B.E. Computer Science and Engineering
GPA: 9.00

01/2023 – 01/2027

Coimbatore

SRSI Matric Higher Secondary School

HSC
GPA: 92%

01/2021 – 01/2023

Coimbatore, TamilNadu

SRSI Matric Higher Secondary School

SSLC

01/2020 – 01/2021

Coimbatore, TamilNadu

PROJECTS

ELECTRICITY BILL PREDICTION APP

- Developed an Electricity Bill Prediction App using Flutter to estimate electricity costs based on user consumption patterns.
- Designed a responsive interface and implemented prediction logic to support smart energy management.

FASHION WITH AI-OUTFIT AND COLOR MATCHING ASSISTANT

- Developed an AI-based Outfit Recommendation System using Machine Learning and Flask to deliver personalized fashion suggestions based on user preferences and attributes.
- Built a responsive frontend using HTML, CSS, and JavaScript, and implemented backend logic for outfit and accessory recommendations, highlighting AI-driven personalization and user-centric design.

HEALTH AND FOOD DELIVERY APP

- Designed a Health and Food Delivery application using Flutter Flow and Figma with a focus on intuitive UI/UX and seamless user experience.
- Developed user-friendly interfaces for meal planning, health tracking, and personalized wellness suggestions, showcasing strong design thinking and visually appealing mobile app development.
